Brand New Book ***** Print on Demand *****.Excerpt from Measurement in Accounting: Scope and Setting In the last few years the field of accounting has been the subject of a critical review the intensity of which is increasing as time goes by. Somehow, both within and without the accounting profession, there is a feeling of dissatisfaction with the information generated by the accounting process, although often the criticisms levied cannot be articulated in a constructive fashion. The practitioner seems to have been taking all this turmoil stoically, possibly because he has to respond to specific requirements and constraints, but the academician has been bewildered. So he has been groping for answers and the search still continues. The topic of this discussion is the scope and setting of accounting measurements. The three papers presented reflect quite well where the accounting profession stands today. They show that there is an earnest and constructive effort toward a thorough self-study and reorientation. The breadth of coverage, ranging from the very abstract (metaphysical) to the very specific is healthy, but it suggests at the same time that we must...
