

The Leland Stanford Junior University Circulars and Registers 1891-1894

Filesize: 7.04 MB

Reviews

*Extremely helpful to all type of individuals. It really is basic but excitement inside the 50 % of the pdf. Its been designed in an remarkably basic way and is particularly only right after i finished reading through this book in which basically transformed me, change the way i believe.

Not illustrated. 1891 Excerpt: . . . including the study and design of all accessory works. Lectures and recitations three hours a week, drafting nine hours a week, first semester. Professor Maex. Open to students who have completed courses 2 a and 6, 3, 5, and 9; required of all students who take their major in Hydraulic Engineering. 14. Sanitary Engineering, including sewerage of towns and drainage of lands. Special attention will be given to the study of all municipal sanitary problems such as removal of sewerage, destruction of garbage, construction, maintenance, sweeping, and repairs of streets and pavements. Lectures and recitations three hours a week, drafting nine hours a week, second semester. Professor Maex. Open to students who have completed courses 2, a and 6, 3, 5, 9, and 13; required of all students who take their major in Hydraulic Engineering. III. FIFTH YEAE COUESES. No fifth year courses in Civil Engineering will be given before 1893-94. MECHANICAL ENGINEERING. Professors Gale and A. W. Smith, Assistant Professor Bryant, and Instructor Buchanan. The aim of these courses is to give the student such training as shall enable him to deal with engineering problems in the design and construction of machinery, and its application to useful purposes. The work includes, as a foundation, a study of mathematics, and of the physical laws by whose application the sources of power in nature--gravitation, heat, and electricity--are made available in doing mechanical work. It embraces also the practical investigation of the strength and other properties of...
