Reviews

Good e-book and useful one. It typically does not expense an excessive amount of. I am just delighted to tell you that this is basically the finest book we have read during my very own existence and could be he best ebook for actually.

(Audra Hodkiewicz)

THE STEP LADDER VOLUME 1-2

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 34 pages. Original publisher: Washington, D. C. : U. S. General Accounting Office, 2001 OCLC Number: (OCOLC)54806811 Subject: Youth -- Tobacco use -- United States -- States. Excerpt: . . . states use of 14-and 15-year-old inspectors and the potential impact on retailer violation rates, but they acknowledged that this is something that will require a more comprehensive evaluation. Another age-related inspection protocol procedure that can affect retailer violation rates is whether minor inspectors are told to carry valid identification on inspections and required to show it when asked. The research on this issue is mixed. Some research suggests that when minors are asked to show identification, retailers are less likely to sell them tobacco products. Other research suggests, and some state officials told us, that the likelihood of an illegal sale is greater if minors show identification when asked than if identification is not shown. As a result, having and showing identification when asked could potentially result in an illegal tobacco sale and a higher retailer violation rate. About half of the illegal sales in one states inspections occurred after the minor showed 25 proof of age. Research suggests that some clerks may sell minors tobacco products because they have difficulty quickly determining an individuals age from a date-of-birth on his or her identification. According to HHS, because of safety concerns, SAMHSA recommends that minors not carry identification but answer truthfully about their age if asked by a store clerk. Research also suggests that the sex of the minor inspector can bias the inspection result. For example, when controlling for the effects of both age and sex of the inspector, one researcher found that girls were able to purchase at a 39-percent rate compared to boys who...
