JAVA ILLUMINATED (HARDBACK)

Jones and Bartlett Publishers, Inc, United States, 2014. Hardback. Book Condition: New. 4th Revised edition. 231 x 188 mm. Language: English . Brand New Book. Each new print copy includes Navigate 2 Advantage Access that unlocks a comprehensive and interactive eBook, student practice activities and assessments, a full suite of instructor resources, and learning analytics reporting tools. Fully revised and updated to reflect the most recent features in Java 7 and Java 8, Java Illuminated, Fourth Edition is one of the most interactive and user-friendly texts available. Comprehensive but accessible, the text takes a progressive approach to object-oriented programming, allowing students to build on established skills to develop new and increasingly complex classes. Java Illuminated follows an activity-based active learning approach that ensures student engagement and interest. This Fourth Edition now includes techniques for producing graphical output and animations using both applets and graphical applications. Packed with real-world applications and student activities, Java Illuminated, Fourth Edition, will draw students in to the world of programming. Key Features Include: * Supports recent features in Java 7 and Java 8, using switch with Strings (Example 5.14) and varargs (Examples 8.24-8.2 5) * Includes the addition of UML to many examples to better illustrate the architecture of the applications and the relationships between classes * Stronger coverage of interfaces and how they can be used to promote reusability of code * An expanded discussion of the Model-View-Controller architecture to better support students who are continuing on to more advanced programming courses, web programming, or mobile computing (for iPhone(TM) or Android(TM)) * Chapter-by-chapter Programming Activities provide students with immediate visual feedback assessing the correctness of their code and give students the tools to fully understand and implement both basic and sophisticated techniques * Common Error Trap boxes warn against typical student errors * Look...
