Reviews

This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Michael Spinka)

HIGH JINX (SUPERB BRAND NEW COPY--UNREAD)

Tucson, Arizona, U.S.A.: Dennis McMillan Pubns, 1988. Soft cover. Book Condition: New. 1st Edition. 1988. Trade Paperback Original. First edition. First Printing. The Westlakes traditionally hosted a gathering for 300 people to confront and solve a murder, baffling and bewildering. It's a party but the murder mystery is taken seriously. This is one of those myssteries converted to a book complete with clues, photos, and nefarious activities. There is a brief forward that sets you up in the situation and there is a quiz for you to take, though slackers are free to skip it. There is also lovely introduction by Martin Cruz Smith. The guests and you are no longer in Mohonk, but its 1938 and you are at the Hotel Kuckkuckuhr in the Swiss Alps, crammed with spies, refugees, Nazis and murder. It's like you're a part of the novel and thus a witness to what's happened, and you should be able to put together the pieces if you're paying attention. You can exercise your gray cells to solve the mystery, or just sit back, read and enjoy. You could actually, and this is totally my suggestion, take this book and actually throw your own murder mystery party--you wouldn't need 300 folks. I have personally written murder mystery role- playing games, one of which is "Where There's a Will There's a Murder" so I can definitely see that with a bit of enterprise this could be done without too much difficulty. It's kind of a make what you want of it book--for everyone from the easy-chair reader to the gregarious party organizer. More simply, you and your friend, lover, whatever could each get a copy and read it together, section by section and have an intimate two-person competiton. The possibilities are almost endless. Then add the glorious cover illustrations...
